

Dear Pheasents Forever,

Thank-you for sending me to the summer camp. It was a lot of fun. I made some new friends during camp. There was one day it was so hot we got to spend the whole day at the beach. I think that was the best day I had the whole week. One night we got to play capture-the-flag with the whole camp instead of having campfire. The worst part was having to walk to our cabin (which was the farthest away from the dining hall) and getting swarmed by bugs. Another part I liked was I didn't have to clear a table the whole entire week. One night for campfire we had two men come play their banjo and fiddle to some old country songs. I had a lot of fun and am glad I had the chance to go. I was going to include pictures but we got them developed but none of the pictures turn out. Thank you very much.

Sincerely,
Kyle McFarren
